### Profile

Responsible and hard-working tech mind, highly passionate about programming. Focused on continuous self-development and improvement of my programming skills. Highly organized with exceptional commitment to task completion and quality assurance when working with computer software programs, motivated to deliver company objectives to projects and results to customers. I am capable of working with a variety of technology and software solutions, as well as managing databases. After achieving some of my own developments, I am ready to take up my first professional experience at the "Front-end" position. I am certain that my set of skills, including teamwork, workflow management, combined with my dedication to create beautiful web resources, will set me for success in my future role.
